St Stephen's Spire...

Provides intensive specialist residential/nursing support in separate facilities, specifically designed to meet the needs of adults who may have:

- **autistic spectrum disorder: Spire View** offers a therapeutic environment for up to six individuals with Autistic Spectrum Disorders, Asperger's Syndrome and complex needs that may challenge the service.
- **acquired brain injuries: Brunel Gardens** offers care and support for up to seven individuals with an acquired brain injury or neurological disorder who also may need support due to associated complex needs and possible mental health issues.

- **learning disabilities/profound nursing needs: St Stephens Court** provides nursing care and support to individuals with learning disabilities who may have complex nursing needs.

- **Brunel Apartments** have been specifically designed to offer individuals the ideal opportunity to lead a more independent lifestyle while still having the support of our team on site.

- **Inspire Centre** is a self contained recreational facility specifically designed for use by those who may have physical, neurological or learning disabilities. It contains a spa hydro-therapy pool, gymnasium equipment, two sensory rooms and a creative suite which is equipped with interactive technology.
